### § 157.8 Acceptance for filing or rejection of applications.

Applications will be docketed when received and the applicant so advised.

This rejection is without prejudice to an applicant's refiling a complete application. However, an application will not be rejected solely on the basis of:

landowner(s) to perform required surveys; or,

(2) Environmental reports that are incomplete, but where the minimum checklist requirements of part 380, appendix A of this chapter have been met.

Such new application shall state the docket number of the prior rejected application.

(c) The Director of the Office of Energy Projects or the Director of the Office of Energy Market Regulation may also reject an application after it has been noticed, at any time, if it is determined that such application does not conform to the requirements of this part.
